

The background features a large, flowing green wave that starts from the left, peaks in the upper middle, and then descends towards the bottom right. The wave has a gradient, with lighter green at the top and darker green at the bottom. A solid dark green horizontal bar is positioned at the very bottom of the image.

putty를 이용한 원격 접속

```
sparkdev@spark-machine:~  
login as: sparkdev  
sparkdev@192.168.56.121's password:  
Last login: Wed Aug 14 12:40:18 2019 from gateway  
(base) [sparkdev@spark-machine ~]$
```

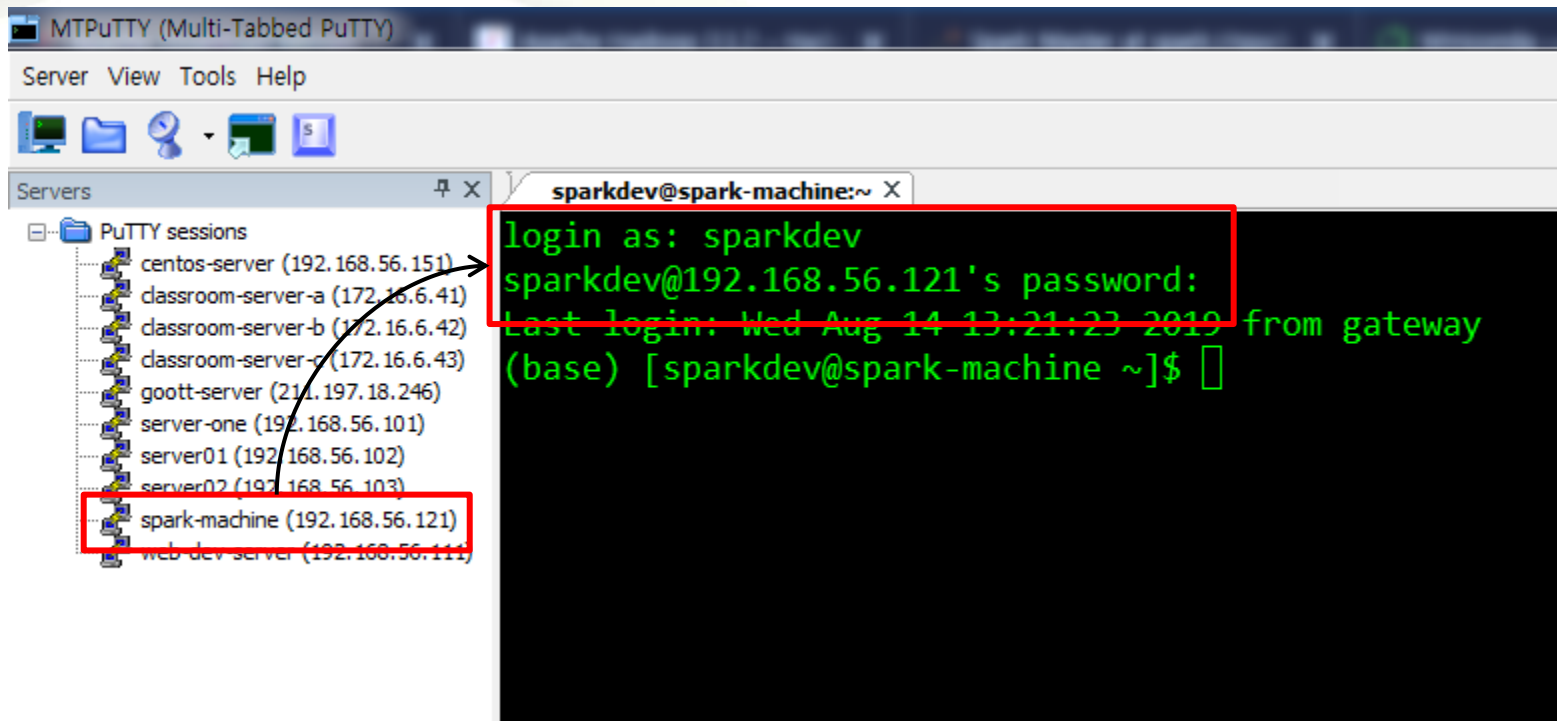

The image shows a PuTTY terminal window with a blue title bar. The terminal text is green on a black background. A red rectangular box highlights the first two lines of the login process: 'login as: sparkdev' and 'sparkdev@192.168.56.121's password:'. The third line shows the login was successful, displaying the last login time and source. The prompt changes to '(base) [sparkdev@spark-machine ~]\$'.
